PRESS STATEMENT

PRESIDENT RUTO'S SUPPORT OF TRUMP'S TWO SEXES POLICY IS REGRETTABLE

President William Ruto has today expressed his support for the official policy of United States President Donald Trump, which recognizes only male and female sexes. This stance is regrettable.

This kind of rhetoric inflames hatred toward the LGBTQi community in Kenya.

It's disappointing to see a President using the pulpit to propagate harmful beliefs that marginalize certain groups of people. Such remarks only serve to perpetuate prejudice and discrimination, undermining efforts toward equality and inclusion for all individuals, regardless of sexual orientation or gender identity.

We call upon our leaders to advocate for equality, diversity, and acceptance of all individuals, regardless of their sexual orientation.

Sincerely,

Harrison Mumia
